West College Scotland

Schools Vocational Programmes

Welcome to West College Scotland's Senior Phase Programme; we are delighted that you are considering coming to study at our College.

If you are unsure what you want to do when you leave school then read on...

The courses we offer are ideal if you want to explore subjects and possible career choices which you may not have had the opportunity to study at school. Our courses are designed to give you a whole new learning experience which is different from your school learning.

COVID 19 - Due to the ongoing pandemic, the delivery of courses may be subject to change. Delivery of all courses are in line with government guidance.

We aim to help you develop new skills relevant to future employment in the wider world and give you the opportunity to progress to further or higher education, so that you achieve your ambitions.

We look forward to welcoming you to West College Scotland.

West College Scotland

Foundation Apprenticeships

Learn the skills you need for the future, while you're still at school

What is a Foundation Apprenticeship?

A Foundation Apprenticeship is an SCQF Level 6 qualification. You can sit a Foundation Apprenticeship over two years, starting in 5th year or a shorter duration course starting in 5th or 6th year alongside your Highers and National 5s.

The difference is, you spend time away from school, at college and with an employer. So you get real, practical work experience.

- Get a qualification that employers recognise and the skills you need to start a career in that industry
- Open up your options after school
- You get to work on real projects with an employer. Some of Scotland's biggest, best known organisations are involved, including McTaggart Construction, Media Monty, Morrison Construction and YMCA
- It's a chance to try a career out - so you can decide if it's right for you

Where could a Foundation Apprenticeship take you?

Straight to Work

An FA gives you skills employers want – like timekeeping, problem solving, communication and teamwork.

You'll have connections with employers, work experience and qualifications recognised by industry.

All this looks great on your CV.

A Modern Apprenticeship

In the same subject: You could complete your MA quicker because you'll have completed some elements of the MA during the FA.

In another subject: You'll already have the experience of learning on the job. That looks good to employers who are recruiting MAs.

A Graduate Level Apprenticeship

You'll have the experience of learning through work – so you're ready to do it a higher level.

With a GLA, you can take your studies further, even up to Master's Degree level. All while you have a job.

College or University

Foundation Apprenticeships are recognised by many Scottish universities and colleges

COVID 19 - Due to the ongoing pandemic, the delivery of courses may be subject to change. Delivery of all courses are in line with government guidance.

CAR MECHANICS

Course Outline

This course will allow you to gain experience in the Motor Vehicle Repair Industry. You will gain experience working on real cars and rigs in a workshop environment. Continual assessment will take place throughout the course, to make sure your skills are being fully developed. This course will increase your chance of employment in vehicle repair industry.

Entry Level Recommended

Working towards 3 National 5 subjects including Maths

Course Content

- ◆ The Garage
- ◆ The Technician
- ◆ The Car
- ◆ Vehicle Modifications

Progression

- ◆ College
- ◆ Modern Apprenticeship

Interview

A successful interview with college staff will be required before a place is offered on the course.

ACCOUNTANCY FOUNDATION APPRENTICESHIP

Course Outline

The Foundation Apprenticeship in Accountancy is for pupils in S5 or S6 and takes 1 years to complete. The aim of the Foundation Apprenticeship Accounting course is to help you understand and use financial information. You will learn to record financial accounting information (and bookkeeping), prepare financial information, indirect tax, analysing accounting information, management accounting and professional ethics for accountants.

Please note work experience will be limited with this Foundation Apprenticeship due to AAT exams and will be arranged during the course.

Entry Level Recommended

- ✓ **Achieved National 5 Maths and English at grade A or B**
- ✓ **National 5 Business Studies will be advantageous**
- ✓ **Working at Higher level**
- ✓ **there may be an element of independent online learning required.**

Course Content

- ✓ **Preparing management accounting information**
- ✓ **Analysing accounting information**
- ✓ **Preparing financial accounting information**
- ✓ **Recording data in the ledger**
- ✓ **Professional ethics for accountants**
- ✓ **Work placement unit**
- ✓ **Advanced bookkeeping**
- ✓ **Final accounts preparation**
- ✓ **Indirect tax**

Progression

- ✓ **HNC/D Accounting**
- ✓ **Modern Apprenticeship in Accounting**
- ✓ **University**

HNC ACCOUNTING

Course Outline

The Higher National Certificate Accounting is a one year course which aims to:

- Give experience of book-keeping and accounting
- Improve and add to existing skills of students who have some knowledge in this area
- Prepare students for progression to further study in accounting or a related discipline

Entry Level Recommended

Must already have one Higher (Grade C and above) or a minimum of 5 subject passes at Intermediate 2 or Nat 5 level (minimum grade of 3 A's & 2 B's) which must include Maths & English

Course content

10 Mandatory SQA Credits:

- Recording Financial Information
- Preparing Financial Statements
- Using Financial Accounting Software
- Cost Accounting
- Management Accounting Using Software Technology
- Accounting: Group Award Graded Unit

Optional Credits (2 further credits)

- Business Law: Introduction
- Economics Issues: Introduction
- IT in Business: Spreadsheets Payroll
- Business Communication
- Personal Development Planning

Progression

- HND Accounting
- University

HIGHER ECONOMICS

Course Outline

This course aims to build on the knowledge; understanding and skills gained in National 5 Economics or, for some learners, can act as an introduction to economics. It is designed to develop learners understanding of the economic environment in which we live. This will enable you to apply economic concepts set in real-life contexts. The main purpose of the course is to highlight how important economic concepts, government policies and global trade are to our everyday lives. It will build on learners' own experiences as consumers and, in addition, help them to interpret economic situations through the application of these concepts.

Entry Level Recommended

- ▶ Achieved National 5 Economics course or relevant component units
- ▶ Achieved National 5 Business Management Course

Course Content

This course offers a blend of theoretical and practical experiences. Skills, knowledge and understanding are developed through a range of contexts within the broad discipline of economics.

Mandatory Units

- ▶ **Economics of the Market**
- ▶ **Economic Activity**
- ▶ **Global economic Activity**

Progression

On completion of this course you can progress onto HNC Business or business degrees at University.

Interview

A successful interview with college staff will be required before a place is offered on the course.

BUSINESS SKILLS FOUNDATION APPRENTICESHIP

Course Outline

The Foundation Apprenticeship in Business Skills is for pupils in S5 and takes 2 years to complete. In S5 the Foundation Apprenticeship will feature the National Progression Award (NPA), plus the new unit 'Contemporary Business Issues'. In S6 it will mainly be delivered in the workplace, and will enable workplace competence to be developed. In addition, the Foundation Apprentices will complete the SCQF level 6 Work Placement unit.

Entry Level Recommended

National 5 Maths and English and preferably a business subject.

Pupils should have an interest in at least one of the following areas: business processes, procurement, entrepreneurship, accounting or management.

Course Content

- Understanding business
- PC Passport - Working with IT software
- Plan how to manage and improve own performance in a business environment
- Support other people to work in a business environment
- Management of people and finance
- Contemporary business issues
- Communicate in a business environment
- Design and produce documents in a business environment

Progression

- HNC/D Business, Accounting or Administration & IT
- Modern Apprenticeship in Business Administration
- University

Interview

NPA CYBER SECURITY

Course Outline

This course provides an opportunity for you to develop your knowledge and skills in data security, digital forensics and ethical hacking. These awards are designed to raise awareness of cyber security and to enable learners to improve their cyber hygiene enabling them to identify security weakness safely, legally and ethically. Cyber Security is an intensive course and will require you to be self-motivated, enthusiastic and prepared to study out with college sessions.

There are opportunities within this course to be involved in national cyber security competitions.

Entry Level Recommended

- ▶ Achieved National 5 in Maths and/or Computer Science
- ▶ Have a basic knowledge of IT systems

Course Content

- ▶ Data Security
- ▶ Digital Forensics
- ▶ Ethical Hacking

Progression

- ▶ NC Computing - Technical Support with Cyber Security or Digital Media Computing
- ▶ HNC Computing: Technical Support with Cyber Security
- ▶ HNC Computing: Software

Interview

A successful interview with college staff will be required before a place is offered on the course.

SOCIAL SERVICES CHILDREN & YOUNG PEOPLE FOUNDATION APPRENTICESHIP

Course Outline

The Foundation Apprenticeship in Social Services Children and Young People is for pupils in S5 & S6. Pupils can study this framework over a 1 or 2 year period (S6 1 year only).

Pupils will complete a National Progression Award (NPA) at SCQF level 6. This includes knowledge units that support pupils to develop an understanding of how children develop and learn, play and child protection. Pupils will also complete the 4 mandatory Units of the SVQ 2 Social Services Children and Young People. The NPA will provide knowledge and an introduction to the skills that will help complete the SVQ units. The NPA has 24 SCQF credit points at SCQF level 6 and the 37 credit points at SCQF level 6. These two parts, along with associated work placement, form the Foundation Apprenticeship in Social Services Children and Young People.

Entry Level Recommended

National 5 English and working towards Higher

Please note: all candidates are required to be

vetted by Disclosure Scotland as part of the Protecting Vulnerable Groups Scheme (PVG Scheme).

Course Content

- ✔ **Safeguarding of children and young people**
- ✔ **Communication with children and young people**
- ✔ **Promote the safety and wellbeing of children and young people**
- ✔ **Support the health and safety of yourself and individuals**
- ✔ **Support the safeguarding of children**
- ✔ **Play for children and young people**
- ✔ **Development of children and young people**
- ✔ **Support effective communication**
- ✔ **Develop your own knowledge and practice**

Progression

- ✔ **Modern Apprenticeship**
- ✔ **NC Early Education & Childcare**
- ✔ **Higher Social Care Level 6**
- ✔ **HNC Childhood Practice or Social Services**
- ✔ **University**

SKILLS FOR WORK CHILDCARE

Course Outline

You will study a National 5 level programme an introductory qualification that will allow you to further develop your knowledge, skills and attitudes needed to consider work in the early learning and childcare sector.

At National 5 pupils can begin to develop transferable skills including:

- **skills to become effective job-seekers and employees**
- **positive attitude to learning**
- **flexible approaches to solving problems**

The Qualification covers areas such as the Development and Wellbeing of Children and Young People, Play in Early Learning and Childcare and Working In Early Learning and Childcare

Entry Level Recommended

Working towards National 5s

Course Content

Mandatory Units

- **Development and Wellbeing of Children and Young People**
- **Play in Early Learning and Childcare**
- **Working in Early Learning and Childcare**

Optional Units (one of the following):

- **Contemporary families**
- **Children and Young People: Rights and Protection**
- **Care and Feeding of Children and Young People**
- **Introduction to First Aid**

Please note no placements are offered on this course.

Progression

- **NC Early Education and Childcare**
- **Employment**

HIGHER PSYCHOLOGY

Course Outline

This course provides an opportunity for you to enhance your knowledge and understanding of Human Psychology. This is achieved by studying a variety of topics that will help you to understand and explain the human mind and behaviour. There are three topics, topic 1 Individual Behaviour, examines aspects which make us unique. Topic 2 Research explains and examines the various research skills employed by psychologists when investigating human behaviour. This unit concludes with a personal research project which will involve pupils selecting a suitable topic for research and devising and conducting that research in collaboration with other class members. The unit concludes with the submission of and individual report that is externally marked and accounts for 40% of the final mark. The last topic Social Behaviour looks at the various social influences that have an influence on our behaviour. There is a final exam.

Entry Level Recommended

- ✓ S6 Pupils
- ✓ Achieved Higher English

Course Content

- ✓ Individual Behaviour
- ✓ Social Behaviour
- ✓ Research

You will also be asked to complete a Research Investigation as part of the Investigating Behaviour unit and keep a logbook to record progress. Your research investigation and logbook will be externally marked and are worth 40% of the final mark. The remaining 60% of the final mark comes from the end of course external exam, which tests your knowledge and understanding of all three units.

Progression

- ✓ HNC in Social Sciences
- ✓ HNC Counselling
- ✓ University

Interview

You may be required to attend an interview for this course.

CIVIL ENGINEERING FOUNDATION APPRENTICESHIP

Course Outline

The Foundation Apprenticeship in Civil Engineering is for pupils in S5. Pupils will be given the opportunity to develop the skills required by modern professional Civil Engineering Technicians and provides an insight to the many career options available. They will study the principles and practices utilised by engineers and consultancy teams working in the field of renewable energy, roads and bridges, flood alleviation, commercial buildings, marine works and environmental protection through an NC in Civil Engineering at SCQF Level 6 and SVQ 3 Construction Technical. In S6 there will be work placement.

Entry Level Recommended

Achieved several National 5 subjects including Maths & Physics and working towards Higher.

Course Content

- ▶ Civil engineering materials
- ▶ Civil engineering site work
- ▶ Computer aided drafting: An introduction
- ▶ Health and safety in the construction industry
- ▶ Mechanics for construction: An introduction
- ▶ Civil engineering project
- ▶ Civil engineering technology
- ▶ Construction site surveying: An introduction
- ▶ Mathematics: Craft 1
- ▶ Construction Technology: Groundworks & Substructures
- ▶ Modern Methods of Construction: An Introduction

DIGITAL MANUFACTURING FOUNDATION APPRENTICESHIP

Course Outline

The Foundation Apprenticeship in Digital Manufacturing aims to give pupils the opportunity to develop the skills and knowledge to enter into a career in Engineering and the Advanced Manufacturing sector and other Engineering related industries. The programme is designed to provide participants with theory, practice and related work experience. The FA in Digital Manufacturing is an SCQF Level 6 qualification aimed at pupils in S5 and will take 2 years to complete.

Entry Level Recommended

Working towards National 5 Maths and a National 5 STEM/Technical based subject

Course Content

- Communication Core Skill Unit
- Mathematics: Technician 1
- Engineering: Applying IT
- CAD for Engineers
- Engineering Manufacturing Processes
- Engineering Materials
- Graphical Engineering Communications
- Industrial CNC Machining

3 mandatory units, 5 restricted core units, plus four optional units from a further range.

SKILLS FOR WORK CONSTRUCTION CRAFTS

Course Outline

Jobs in the construction industry are ever in demand. If you are interested in securing one, you should try this introductory course. It is an ideal starting point for you to explore each of the main trade areas. This is a very practical course; students will work in a variety of workshops producing products and models that are accepted as being completed to industry standards.

Entry Level Recommended

- Working towards National 5 Maths and English
- Genuine interest in the Construction Industry

Course Content

- Employability Skills
- Half Brickwork
- Decorative Painting
- Site Carpentry Bench Joinery

Progression

- NPA Bricklaying
- NPA Roof Slating & Tiling
- NPA Painting & Decorating

Interview

A successful interview with college staff will be required and also a multiple choice exercise before a place is offered on the course.

PERFORMING ENGINEERING OPERATIONS

Course Outline

This qualification covers the fundamental skills and knowledge common to all engineering and manufacturing practises including health and safety requirements and communicating engineering information. The qualification is comprised of 3 Mandatory units and 2 Optional Units (from a large selection of 32.) The 2 practical units are there to substantially improve the practical skills of the pupil, by manufacturing a number of different items from a series of engineering drawing to within a given tolerance.

Entry Level Recommended

Preferable should have or be working towards national 5 qualifications in two of the following Maths, Graphical Communication, Metalwork, Woodwork, Design and Technology/Manufacture, Science

- Have a keen interest in engineering
- Be a good communicator
- Be a team player
- Be prepared to commit to the course.

Course Content

Mandatory Units

- Working Safely in an Engineering Environment
- Working Efficiently and Effectively in Engineering
- Using and Communicating Technical Information

2 units from a selection of 32 to be decided by the department.

SOCIAL MEDIA & ANIMATION

Course Outline

Social Media is everywhere and is used to interact and promote a wide range of hobbies, interests, sports, arts, business and general communication, on a daily basis, worldwide.

This course will help you to create animations and content to promote your area of interest through inclusion within a social media context.

You will look at social media platforms, social media tools, social media methodologies and social media etiquette, whilst creating your own social media platform. You will learn about the basics of animation through use of animation software and how this can be used to maximise the effect of promoting your social media platform. You will also learn how to use film, audio, photography and digital art software to create content for a website.

Entry Level Recommended

Working towards National 5s

Course Content

- ▶ Animation Fundamentals
- ▶ Art & Design Project
- ▶ Interactive Multimedia for Web Development
- ▶ Research

Progression

- ▶ NC Media
- ▶ NC Graphics

Interview

A successful interview with college staff will be required before a place is offered on the course.

HIGHER DANCE

Course Outline

This is the perfect course for you if you have an interest in working with others and enhancing your knowledge and understanding of choreography to create new and exciting dance work. You will participate in a variety of dance styles and learn, with others, how the fundamentals are used in the creative process of choreography (dance styles include Jazz and Contemporary). A basic understanding of Jazz, Contemporary or Ballet is beneficial but not essential for this course and you will be expected to display a commitment to engaging in new ways of working within dance. As you will be working with others, especially in choreographic pieces, full attendance on this course is expected. You will be given support throughout the course to plan, develop and evaluate your performance and will be kept fully informed of your progress. During this course you will have the opportunity to attend theatre trips and workshops such as the Scottish Ballet Highers' day.

Entry Level Recommended

A reference is required for this course

Course Content

- Choreography
- Technical Skills
- Dance

Progression

- NC Dance
- HND Dance Artists.
- University

Interview

Entry is by audition and interview only, this will involve: A practical dance class, a group presentation about the course and content, a written short answer paper. The practical class requires that: Appropriate dance clothing should be worn. You should be prepared to dance bare foot. You may be introduced to dance styles which you have not tried before. If you are interested you will be notified through your school of an audition date. Following auditions, places are offered to those who demonstrate the greatest potential to benefit from the course, regardless of their previous experience or dance education background.

HIGHER PHOTOGRAPHY

Course Outline

Photography is the world's most popular hobby activity. So many business and professions now use photography to promote and develop their brands and products. From Instagram to posters in Braehead Shopping Mall photography is all around us.

Working towards a Higher in Photography will require you to take time in your week to plan, take and edit your pictures. Some projects are weather dependent meaning you will have to take pictures when possible; that might mean early on a Sunday morning!

Some students who complete this course go on to join our very successful courses in photography here in the College. Other students use the Higher to boost their art qualifications for entry to university, college or art school. As part of your school week this course gives you a chance to make a move to the next stage of your development, being a college student, working with new people from across Renfrewshire.

Students really love this course and explain it has helped their confidence and made

them feel more ready to move to college/Uni or work full time.

The course assumes you have little or no experience of photography when you start. We provide all equipment and materials you will need. This is a creative subject that also has a technical element. It will give you an opportunity to practice a wider range of skills – and it looks great on your UCAS or job application form!

Entry Level Recommended

There are no formal entry requirements

Course Content

- ▶ **Learn to use a DSLR camera and edit your images**
- ▶ **Contextual imagery Look at the world of photography, design and plan your photo shoots**
- ▶ **Compile a final project folio of your images**

Progression

- ▶ **NQ Photography**
- ▶ **HNC Photography**
- ▶ **University**
- ▶ **Art School**

HOSPITALITY ESSENTIAL SKILLS

Course Outline

This course is designed to give you an introduction to the many areas of the hospitality industry where you may wish to work but do not have either the skills required or the knowledge of all the areas that exist. The course will centre around the planning and eventual carrying out of an event where you will as a group showcase the skills and knowledge you have acquired on the course to friends and family as well as staff from your school. The course will also equip you with some of the requirements necessary for work in the hospitality industry e.g. Licensing training and REHIS Elementary Food Hygiene certification.

Entry Level Recommended

No formal qualifications are required for this course but previous experience of a home economics or hospitality subject would be beneficial.

Course Content

- Assist in organising an event
- Barista Skills
- Food and Beverage service
- REHIS Elementary Food Hygiene
- Customer Care
- Team building skills
- Licensing training
- Prepare and Serve Dispensed and Instant Hot Drinks
- Prepare Hot and Cold Sandwiches
- Allergy Awareness Certificate

Frequently Asked Questions

How do I get there?

If transport is required this is organised through your school and will take you back to the nearest point to your home at the end of the day.

For Foundation Apprenticeships travel expenses will be provided for work placements located more than 2 miles from your home.

How are these programmes different from the subjects I take at school?

The main difference is that you will spend time at college while working towards qualifications at SCQF Level 4, 5, 6 or 7.

If you are studying a Foundation Apprenticeship you will spend time in a work placement with an employer.

How will the courses be certified?

You will receive a certificate from the relevant awarding body (SQA, IMI etc.).

So what are the benefits?

The award itself will act as a springboard into the workplace, a modern apprenticeship, or to go onto college or university. You will develop valuable skills such as communication, working with others and problem solving, skills that are beneficial in the world of work.

Who do I contact if I have a problem while at College?

The Schools Team can be found in the Renfrew Building along from the Main Reception at the main entrance.

It sounds great - how do I apply?

Places are limited, you should speak to your pastoral/guidance teacher as soon as possible. You should also read the option details for your choice of course and discuss this with your parent or guardian. Your school will instruct you on the relevant online application process.

For Foundation Apprenticeships you must apply online through the West College Scotland website.
