

LGBTQIA+ Information for Parents

Please find below several websites that provide support and information for parents of an LGBTQIA+ child. We have recently created a Parent LGBTQIA+ Support group to help parents of young people who identify as part of the LGBT community. Please look here soon for updates and further information.

If you are concerned at all about the well-being of your child, do not hesitate to get in contact with your child's Pastoral Support Teacher by phoning the main office on 0300 300 1313. If your child's teacher is unavailable due to their teaching commitments, please leave your name, most up to date contact telephone number and the Pastoral Support Teacher will get back to you as soon as possible.
