

SCQF Ambassador Programme 2021

This session we are introducing the SCQF Ambassador programme to Gleniffer High School. This programme helps us to educate pupils, parents, and staff about the benefits of the Scottish Credit Qualifications Framework (SCQF). It will also show how SCQF supports learners such as recognising Wider Achievement, developing Senior Phase learning pathways in line with the Developing the Young Workforce strategy and giving equality between vocational and academic qualifications.

We have identified four of our S6 pupils who will take forward the SCQF Ambassador programme this year. They have already undertaken their training and have presented to our Parent Council of the benefits of engaging with the SCQF Ambassador Award.

Please have a look at the SCQF website which gives you lots of information about the SCQF Framework and potential pathways for our learners. But first, here are two short videos to explain in more detail.
